

## Exercise 1. 4. Which residential option suits my interests and needs best? (My future residence)

The educator presents the various residential options, as well as their advantages in terms of the Quality of Life Model. Ask each participant to say what their chosen choice is and to explain their positive and negative feelings about the different residential options to the group.

The following two tables can be used as visual support.

**Note:** It is highly recommended that you have done the previous exercises of this unit to facilitate decision-making in this exercise.
