

## Exercise 6.6. Abuse of rights

Claudia is thinking to attend the birthday party of her friend Mario. She needs to go with someone from the residence where she lives. The psychologist has told her this evening that it is very cold and is not convenient for her to come out from home. He recommends to her say hello to her friend by an online call. She is very sad.

### Is this an abusive conduct?

The educator exposes the following situation to the AAWID and they should decide if it is -or not- an abusive conduct. An interactive debate will follow it.

1. Claudia has turned into 60 years old and in her day centre are thinking to move her out from her home. She would rather staying at home with some external support, but the professionals of her centre have not asked her and are looking for a residence to move her there.

**Note:** After identifying the abusive conduct, it is seems appropriate to ask the learners to propose an adequate alternative.
