Between 2000 and 2050, the number of people aged 60 and over is expected to double

In 2050, more than 1 in 5 people will be 60 years or older.

## ► EVERY OLDER PERSON IS DIFFERENT

Some have the level of functioning of a 30 year old.

Some require full time assistance for basic everyday tasks.

# ▶ WHAT IS NEEDED FOR HEALTHY AGEING

A change in the way we think about ageing and older people

Creation of age-friendly environments

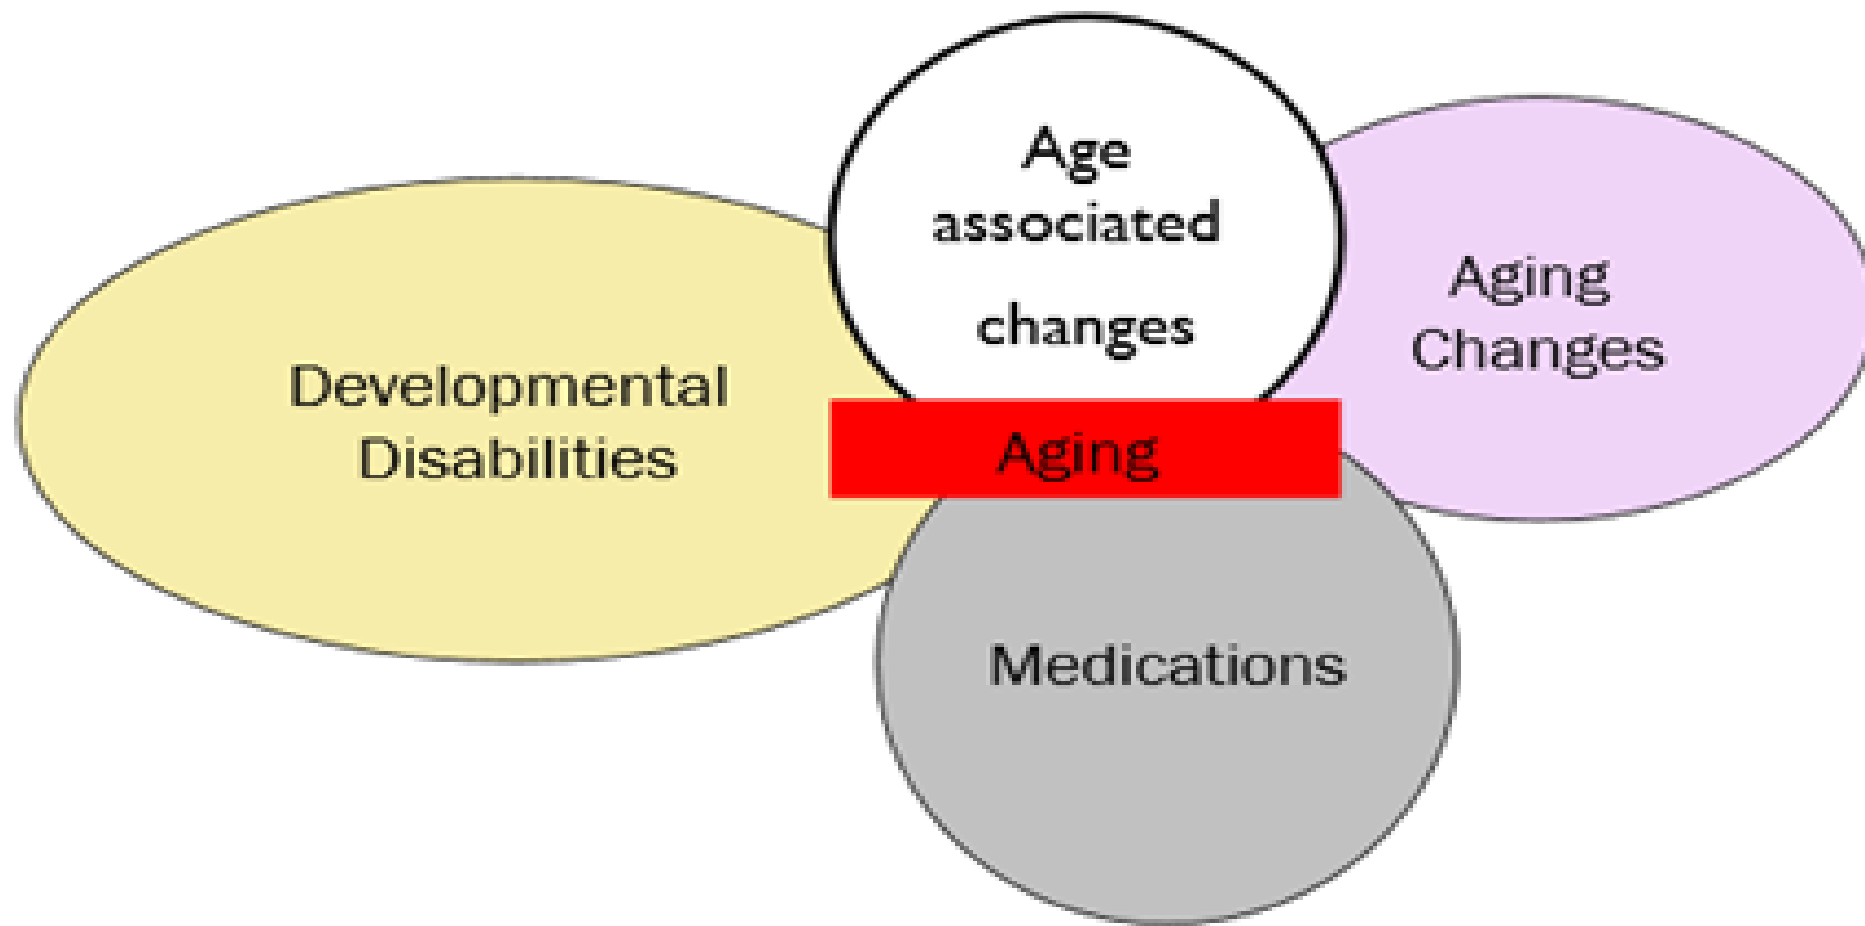

Alignment of health systems to the needs of older people

Development of systems for long-term care

Factors, which influence ageing
